social_contacts_ui	<i>Collect social media contact information</i>
--------------------	---

Description

A shiny module to collect and normalize a user's social media contact information.

Usage

```
social_contacts_ui(id, twitter = TRUE, linkedin = TRUE)
```

```
social_contacts_server(id)
```

Arguments

id	The unique identifier of the module. This value must match between the ui and the server.
twitter, linkedin	Logical; whether to include the given site in the ui. At least one of these values must be TRUE.

Value

A shiny module ui, or the normalized contacts from one.
